

EVkids Impact Report 2017

At his last debate tournament, 7th-grader Amanj had his own personal cheering section -- his tutor Derek, a Harvard junior, got up early on a Saturday to encourage him. Amanj is a member of every club offered at his middle school, and he looks up to Derek as a role model.

Famatta knew she liked her tutor right away, but they really bonded when they realized they were both the children of African immigrants. 6th-grader Famatta looks up to Rahel (Harvard '21), and sees Rahel as an example of what she could achieve with hard work and determination.

In their fourth year as a Tutoring pair, Nick Flowers (BC '18) is unphased by his tutee Swahibu's dislike of photos. Together, Nick and 11th-grader Swahibu are preparing for the ACT and researching colleges. In January, the pair got to hang out with pro basketball players during warmups before Celtics Mentoring Night.

Numbers

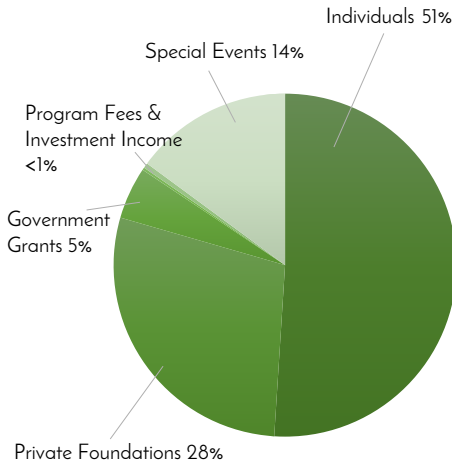

By the

Accomplishments

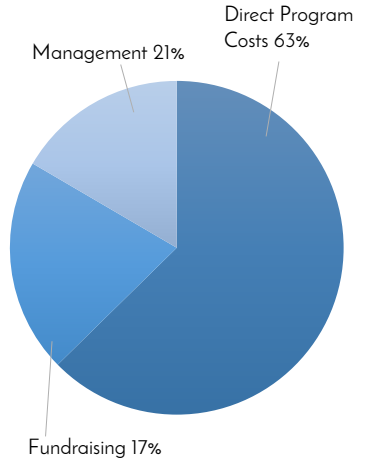

Over 18 months Jan 2016 - Jun 2017
